Tips Given For Better Corn Yields

FERTILIZATION FOR MORE CORN PER ACRE

By R. B. Hudgins, County Agent, Appomattox, Va.

On growing more corn per acre on land where no legume is turned and no manure used, broadcast 400 to 600 pounds per acre of 2-12-12, 4-16-8, or 4-12-8 or some similar complete fertilizer and disc or harrow it in before planting. Then, use 200 to 300 pounds per acre of the same analysis in the row at planting. Additional nitrogen must be used for best results and it may be applied after the corn has been planted for about 40 days or when the corn is about knee high.

On medium land where manure will be used, broadcast on each acre 10 or more pounds of phosphate before planting and disc or plow in. Then, use 200 to 300 pounds of a complete fertilizer in the row at planting. When corn is about knee-high, apply 150 to 200 pounds of nitrate of soda.

If a 12-inch or more growth of a legume, such as red clover, is turned under, broadcast 200 or 400 pounds to the acre of 2-12-12, 4-16-8, 4-12-8, or some similar complete fertilizer and disc or harrow in before planting. Use 200 to 300 pounds to the acre in the row at planting.

Under other conditions, such as planting corn behind good stands of alfalfa or ladino clover which have been well fertilized, use 200 to 300 pounds of 2-12-12, 4-16-8, or 4-12-8 to the acre in the row at planting.

The quantity of fertilizer, especially the phosphoric acid and potash, recommended above for corn may not be needed by the corn crop itself, but the amount left over will be needed by other crops in the rotation and will raise the general fertility level of the land for higher yields of all crops grown in the rotation.

A poorly prepared seedbed is the forerunner to a poor stand and a poor crop. A seedbed that is free of clods, compact underneath and loose on top, is important in good production.

A thorough disking and harrowing just before planting will help control weeds and crab grass. If it should rain after disking, but before planting, disk or harrow again before planting.

On land which is subject to erosion, plant your corn on the contour—that is, AROUND the slope instead of up and down. The planting date is usually two to four weeks after the average date of the last killing frost.

Corn planted about one inch deep gives the highest yield. Experiments show that when corn is planted more than an inch and a half deep, the yield is reduced.

Thick planting will give a higher yield if there is enough plant food and moisture to produce the corn. Therefore, on good land well supplied with plant food, plant your corn so as to have a final stand of at least 12,000 to 15,000 stalks per acre. Therefore, to get the most from hybrid corn, plant it thicker than you normally plant open-pollinated.

For instance, distance in row 12 inches, width of row 3 feet gives 14,520 stalks while rows 3 1-2 feet apart have 12,446 stalks.

The first cultivation is one of the most important, because the weeds are small and easier to kill. The use of a spike-tooth harrow or rotary hoe from the time the corn starts to come up until it is two to three inches high is the most economical and effective way to reduce weeds. Two or three shallow and level cultivations at intervals of about two weeks will generally be enough.

After corn is knee-high, cultivations over two to three inches deep will destroy a large number of corn roots. The corn plant takes up water and plant foods through its roots, and when these feeder roots are cut or injured, the yield will be reduced.

For recommended hybrids, see your county agent.

A. H. S. Baseball Team Loses to Cumberland

Appomattox High School opened its 1951 baseball schedule on last Tuesday by downing Concord 5 to 1. Appomattox, after a week's practice in baseball did not show as much hitting power as last year's team. Nine seniors graduated and it left the A. H. S. team weak in many spots, especially hitting. The only returning regulars from the 1950 team are Ed Cawthorne, Maymond Mitchell, who is this year's captain; Bobby Chernault and Calvin Tanner. The rest are junior varsity boys of last year, and Coach Gordon Bragg says it will take a few games to get them ready for league play.

Calvin Tanner and Maymond Mitchell combined on the mound to hold Concord to two hits, one being a home run by Jones to account for Concord's lone run. Appomattox had six hits, but bunched to score the five runs.

The team lost to Cumberland here Tuesday, 8 to 4. Maymond Mitchell went all the way on the mound for A. H. S. Ed Cawthorne had three hits to lead all batters, followed by Bill Jamerson with two. The team showed lack of practice, for it was the third straight year A. H. S. has lost the second game of the schedule. In the past two years, however, they have won 29 while losing only 5.

The next game will be played at Pamplin Monday, April 9, at 4:00 P. M.

Cancer Drive Set For April

MAYOR'S PROCLAMATION

Last year some 210,000 families lost a father, a mother, or a child to cancer. Of these more than 100,000 were in the prime of life, between the ages of 30 and 55. They were stricken when their families, their friends and their communities needed them most.

Those who are left know cancer as a terrible threat. They know that the disease reaches beyond the patient to family and loved ones all of whom must share a serious burden.

Happily, there is a brighter side. Physicians can now cure half of those who develop cancer if the disease is diagnosed early and treated promptly. Today, however, only about one in four, who have the disease, are being saved.

We as individuals have a great responsibility; we can strike back at cancer through spreading lifesaving facts and through contributing to the Cancer Crusade. Lives will be saved—in our country, our state, our community, and perhaps in our own families.

Therefore, I, G. B. Buchanan, Mayor of Appomattox Va., take great pleasure in proclaiming April as Cancer Control Month. I call on all citizens to join in the Cancer Crusade of the American Cancer Society. I heartily subscribe to the Crusade's theme: Guard Your Family. Strike Back. Give to Conquer Cancer.

—G. B. Buchanan, Mayor.

AVERAGE VIRGINIA CHECKING ACCOUNT IS $1,220, STUDY SHOWS

Richmond, Va., April 4.- Signs of the times note:

A sample-method study of Virginia banks knows that 50.3 per cent of all checking accounts contain more than $100.

Further, these accounts of more than $100 represent 98.9 per cent of the total dollar volume of checking account deposits. The average size checking account in Virginia is $1,220.06. The average amount in the accounts of over $100.00 is $2,402.89.

The commentary on these prosperous times is contained in a booklet called "A Yardstick of Costs for Virginia Banks," published recently by the Virginia Bankers Association and the Federal Reserve Bank of Richmond. Using figures derived from a representative 38 of the state's 309 commercial banks, the study calls bankers' attention to the fact that handling of these hefty checking accounts cost money.

E. T. Guill Not to Be Candidate

E. T. Guill advised the Times-Virginian this morning that he had decided not to be a candidate for sheriff of Appomattox County in the August Democratic primary.

Earlier Mr. Guill had announced for the office, in opposition to the incumbent, David T. Robertson.

Mr. Guill stated that he had decided to withdraw as a candidate, and that he wished to thank all those who had offered him support.

This announcement leaves only one political contest for the most in this county, that for supervisor in Southside District. In that district, incumbent F. L. Murphy will be opposed by C. C. Harvey.

In Buckingham County, H. E. Griffin has announced that he will not be a candidate for another term as county treasurer, an office he has held for 24 years.

Full Slate Not Announced In Town Race

It has been ruled that candidates have until April 12 to file for town of Appomattox offices. The town election will be held in June. Thus far the following have filed:

For mayor: J. T. Irby.

For town council: Chas. T. Moses, Jr., J. E. Jamerson, J. C. Caldwell and C. S. Jenkins.

It is understood that George B. Buchanan, incumbent, will seek another term, and that Dr. Charles F. James will ask for reelection to the council upon his return to Appomattox today from Alabama.

Funeral of Mrs. F. J. Smith

Mrs. Sallie Spiggle Smith, of this county died Friday in a Lynchburg hospital after a brief illness. She was the wife of Frank James Smith, supervisor of Stonewall District of Appomattox County.

Senior Play April The 12th

The Senior Play, "Lay Down, You're Dead," is now in rehearsal at Appomattox High School Story of the play: Only the author of The Saturday Evening Ghost could conjure up such an unusual combination of laughs and thrills as the ones in this mirth-comedy. When the news arrived at the Burrows home that that terrible demon of a child, Kittie, and her mother were coming to visit, all were dismayed, for Kittie was as popular as the Japanese beetle. The fact that Mr. Burrows, crusading editor of the Daily Standard, was involved in a campaign for law and order, didn't faze Kittie in the least. The story unfolds with laugh after laugh and is fun entertainment.

The play will be presented April 12, at 8:00 P. M. in the auditorium. Admission is 50 and 35 cents. The cast includes: Sonny Martin, Betty Wingfield, Ann Waller, Inez Hanenkrat, Barbara Carter, James Harris, Fleetwood Blackwell, Helen Mae Poe, Barbara Johnson and Lois Wood. Mary Ann Thompson is advertising manager for the play.

The two this week were on a jury hearing a malicious wounding indictment, and the jury brought in a verdict of guilty of unlawful assault, with sixty days in jail.

The court was in session all of Tuesday, and recessed until May 29, when a civil suit will be heard.
